

Helsinn Group submits a new formulation of AKYNZEO® to the European Medicines Agency (EMA)

Lugano, Switzerland – April 2, 2025 – Helsinn Group (“Helsinn”), a global pharmaceutical company with a track record of nearly fifty years of commercial execution and a strong focus in supportive care, oncology and dermato-oncology, today announced the submission of a new formulation for AKYNZEO® to the European Medicines Agency (EMA).

AKYNZEO® is indicated for the prevention of acute and delayed nausea and vomiting associated with both highly emetogenic cisplatin-based cancer chemotherapy and moderately emetogenic cancer chemotherapy.

Once approved, this new innovative formulation may offer benefits to cancer patients in addition to the already approved formulations.

The new AKYNZEO® formulation is expected to be launched in H1 2026.

Roberta Cannella, Chief Technical Officer, commented: “This submission brings us closer to offering patients a new option for AKYNZEO®. It not only demonstrates our commitment to enhancing patients’ quality of life but also our dedication to innovation in supportive care.”

About AKYNZEO®

AKYNZEO® is the first and only 5-HT₃ and NK₁ receptor antagonist fixed dose combination approved in adults for the prevention of acute and delayed nausea and vomiting associated with highly and moderately emetogenic chemotherapy.
